Greetings Team,

As some of you have already heard our current Spam filtering service with Mxlogic is nearing its end of life and we will be discontinuing service this January.

We will be switching over to a new Spam filtering service this weekend when our email traffic is at its minimum. I have imported our user accounts for both BID and CCA into the new service and transferred your allowed and blocked email list that you have with Mxlogic over as well. Later today you will receive an email from "AppRiver's Customer Portal" that will look like the one below, when you receive this email please follow the instructions to reset your password and bookmark the link for your customer portal.

New SPAM Filtering Service to be implemented th...
